Accounting principles

SpareBank 1 SMN prepares and presents its quarterly accounts in compliance with the Stock Exchange Regulations, Stock Exchange Rules and International Financial Reporting Standards (IFRS), including IAS 34, Interim Financial Reporting. As from 2007 the company accounts are also prepared and presented under IFRS. This entails that investments in associates and subsidiaries are recognised using the cost method. For this reason results recorded by associates and subsidiaries are not included in the parent bank's accounts. Further, the Group has in this quarterly report mainly used the same accounting principles and calculation methods as in the latest annual report and accounts [Exceptions, see Note 1 - Accounting Principles in the Quarterly Report]. The quarterly accounts do not include all the information required in a complete set of annual financial statements and should be read in conjunction with the annual accounts for 2013.

4. Capital Adequacy

The Ministry of Finance adopted on 22 August 2014 amendments to regulations on capital requirements taking effect on 30 September 2014. The amendments bring Norwegian legislation into line with the EU's new capital requirements framework (CRR/CRD IV). This framework is for the present not incorporated into the EEA agreement, although its most important provisions have been incorporated in the Financial Institutions Act and the Securities Trading Act. The adjusted legislation entered into force on 1 July 2013, and requires a gradual increase in minimum requirements on Common Equity Tier 1 (CET1) capital in the period to 1 July 2016.

As of 30 September 2014 the capital conservation buffer requirement is 2.5 per cent and the systemic risk requirement is 3 per cent. The systemic risk buffer rose by 1 percentage point as from 1 July 2014. These requirements are additional to the requirement of 4.5 per cent CET1 capital, so that the overall minimum requirement on CET1 capital is 10 per cent. On 30 June 2015 a countercyclical buffer requirement of 1 percentage point will become effective, bringing the overall minimum CET1 requirement to 11 per cent.

Norwegian authorities have chosen to continue the Basel 1 floor as a floor for risk weighted assets.

SpareBank 1 SMN utilises the Internal Rating Based Approach (IRB) for credit risk. Use of IRB imposes wide-ranging requirements on the bank's organisational set-up, competence, risk models and risk management systems. In June 2013 the bank applied for approval to switch to Advanced IRB for those portfolios currently reported under the IRB Foundation Approach.

The most central changes in connection with the new rules:

* Deductions in own funds will primarily reduce CET1 capital, whereas previously CET1 capital and supplementary capital were reduced equally on a 50-50 basis

* Changes in deductions in respect of assets in other financial institutions. A distinction is drawn between significant and non-significant assets, and deductions are to be made in the same asset class as that to which the owned asset belongs. The limit for deductions in respect of assets in other financial institutions is raised from 2 per cent of the other institution's own funds to 10 per cent ownership. The deductions are limited to 10 per cent of own CET1 capital, and all assets below 10 per cent are part of risk weighted assets. The previous capital adequacy reserve no longer applies

* Deferred tax benefit related to temporary differences within 10 per cent own CET1 capital will now not be deductible, but will instead be risk weighted at 250 per cent. Deferred tax benefit above 10 per cent will be deductible from CET1 capital

* The sum of deferred tax benefit and significant assets that are deducted from CET1 capital cannot constitute more than 17.65 per cent of own CET1 capital

* Introduction of Additional Value Adjustments (AVA deductions) – requirement for prudent valuation

* Introduction of Credit Value Adjustments (CVA) for derivative positions

* Changes in rules governing risk weighting of exposures to covered bonds and rated institutions, will now be risk weighted based on the institution's own rating

In connection with changed requirements on conditions governing hybrid capital, hybrid capital not meeting the new requirements over time will not be eligible as other core capital. The bonds will subject to a stepwise reduction of 30 per cent in 2015 and 10 per cent thereafter. As at 30 September 2014 SpareBank 1 SMN held hybrid capital worth NOK 450m that will be subject to stepwise reduction. Finanstilsynet may require the hybrid capital to be written down in proportion to equity capital if the bank's CET1 capital ratio falls below 5.125 per cent.

As from the second quarter 2013 the measurement of operational risk switched from the Basic Indicator Approach to the Standardised Approach. At group level the Basic Indicator Approach still applies to subsidiaries.

Capital adequacy figures are stated in accordance with the new reporting requirements as from 30 September2014. Comparatives have not been restated.

7. Segment information

As of 1 January 2014 the bank's SME portfolio was split up and assigned to Retail Banking and Corporate Banking respectively. Limited companies are transferred to Corporate Banking. Sole proprietorships, agricultural customers and associations etc are transferred to Retail Banking. Historical data have not been reworked owing to the difficulty of reconstructing such data at a sufficiently precise level. In the segment information, historical data for Retail customers are exclusive sole proprietorships, agricultural customers and associations. Historical data for Corporate customers are the former Large Corporates. The SME portfolio is treated as a separate business line in figures for 2013.

For the subsidiaries, the figures refer to the respective company accounts, while for joint ventures incorporated by the equity method the Group's profit share is stated, after tax, as well as book value of the investment at group level.

SpareBank 1 Regnskapshuset SMN AS

SpareBank 1 Regnskapshuset SMN is an accountancy business, which has also built up a dedicated advisory/technical department, comprising experts in tax, accountancy and governance. In collaboration with other SpareBank 1 banks, SpareBank 1 Regnskapshuset SMN has launched a nationwide drive in the accounting business through SpareBank 1 Regnskapshuset. SpareBank 1 Regnskapshuset intends to be one of Norway's leading actors in the accounting industry by building up a national accounting enterprise based on regional ownership, strong links to the owner banks and closeness to the market.

SpareBank 1 Regnskapshuset SMN took over six accounting firms in 2013. Four further accounting firms have been acquired in 2014. The strategy of growth through acquisitions represents a consolidation of a fragmented accounting industry.
